

## CS361: Assignment 4: Milestone #1 Implementation

### Overview

Implementation begins! Following your Sprint 1 plan, **implement Milestone #1**.

### Instructions

Complete each item below by replacing the **highlighted text** (**Usability note**: double-click the text to select it).

#### 1. Milestone #1

Implement the milestone, then create a **short video** showing it (5 minutes or less). **Provide a link** to the video:

<https://www.youtube.com/watch?v=HKjiruchFis>

#### Milestone #1 requirements:

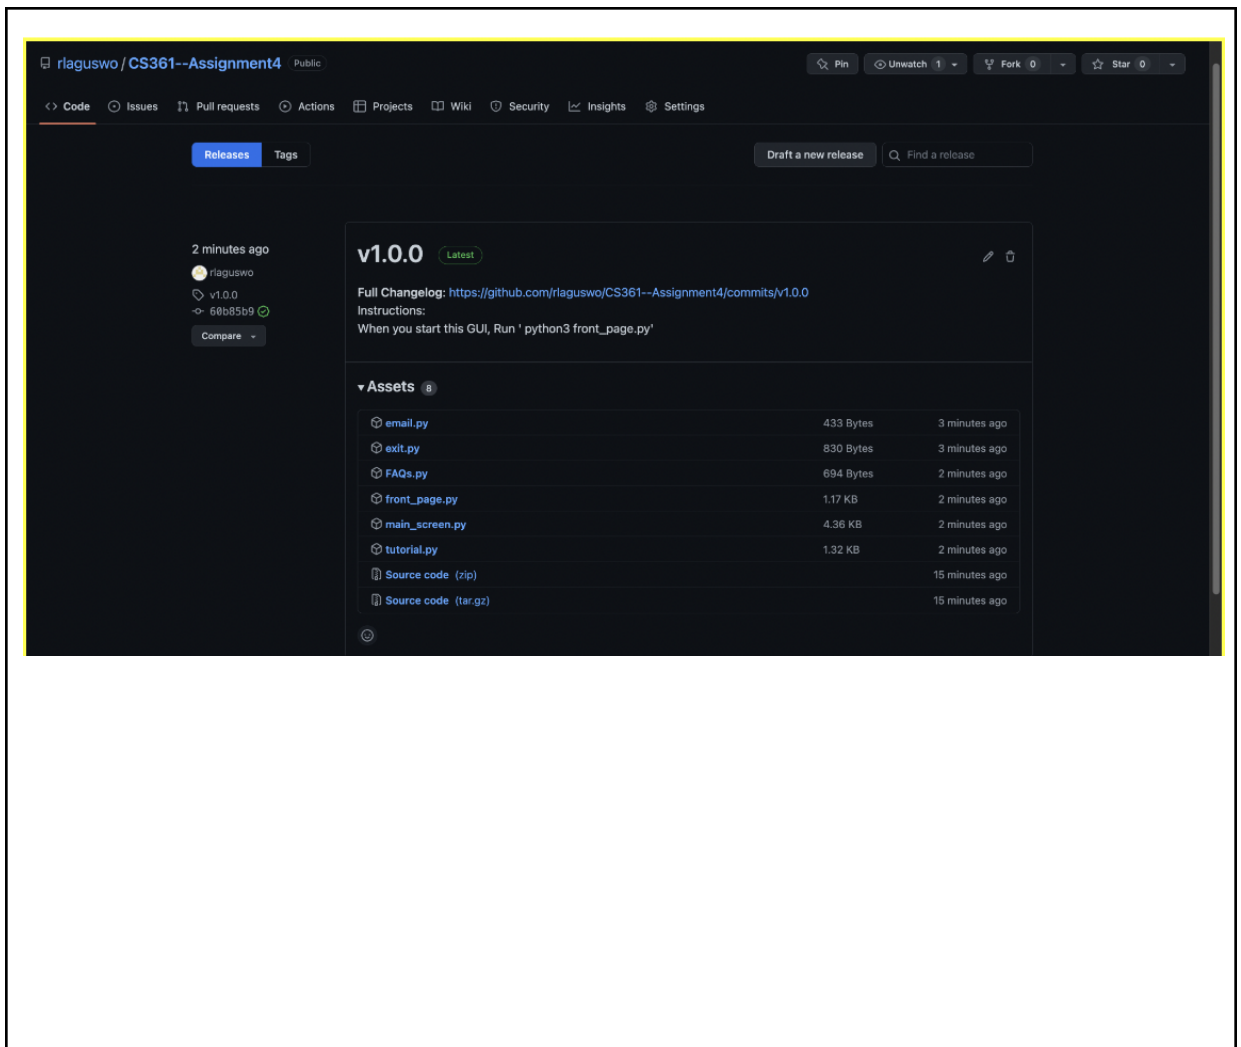

- Has a way for users to interact (e.g., provide input, push buttons, etc.)
- Reflects CSH
- Reflects three quality attributes you choose

Video must show that the implementation meets the requirements.

#### 2. GitHub

- (a) Create a **GitHub release** that contains your code. It should have a **version number**. Provide a **screenshot** of your release. Instructions for creating release:

<https://docs.github.com/en/repositories/releasing-projects-on-github/managing-releases-in-a-repository>

## Submission

PDF or Word format via Canvas. Embed or link to **video**.

**For video, follow instructions at Canvas > “Start Here - ReadMe First” > “HOW TO: Create and Upload a Video”.**

## Grading

You are responsible for satisfying all criteria listed in the Canvas rubric for this assignment. You will be able to revise this assignment if you miss points.

## Questions?

Please ask via Ed so that others can benefit from the answers.
